

# Social Hacking Canvas

	Problem	Community	Partnerships	Access	
DEFINING THE PROBLEM	<p><b>Briefly define the problem.</b> How has the problem impacted the community? What will the community look like if this problem is solved or alleviated?</p> 	<p><b>Who are the members of the community?</b> Who is impacted by this problem the most? How does it impact their lives?</p> 	<p><b>Consider partnerships</b> Who are the organizations, groups, or agencies aware of this problem? Who is already working on this problem? What are they doing? How can you contact these entities to get their expertise to help your project?</p> 	<p><b>Outreach and Access</b> What access does the community have to power, electricity? To computers, internet, mobile phones? At what level? What are the most effective ways of reaching this population?</p> 	
	Activities	Resources	Integration	Longevity	HACKING A SOLUTION
	<p><b>What would you like to do?</b> Describe the desired functionality of your solution. How would someone use it?</p> 	<p><b>What do you need to accomplish your goal?</b> What do those resources cost over time?</p> 	<p><b>How do you manage community relations?</b> How will community members use your tool? What will they expect from it?</p> 	<p><b>Think about the future</b> How will you seek support to cover long-term costs? How will you support users? Where do the users go for help with using the tool?</p>
